Vestel Meeting Room Solution

‘VHuddle Pro’ is designed to adapt to the requirements of the modern workspace.

Using touch or pen, anyone can take notes on the display, start a meeting or use any pre-selected application. For private users, VHuddle offers to connect to the display wireless easily from external PCs.

After meetings, VHuddle ensures to remain in the same configuration for everyone while maintaining the security and durability of the display.

Digitizing Workspace

While digitizing modern workspace, VHuddle offers to address:

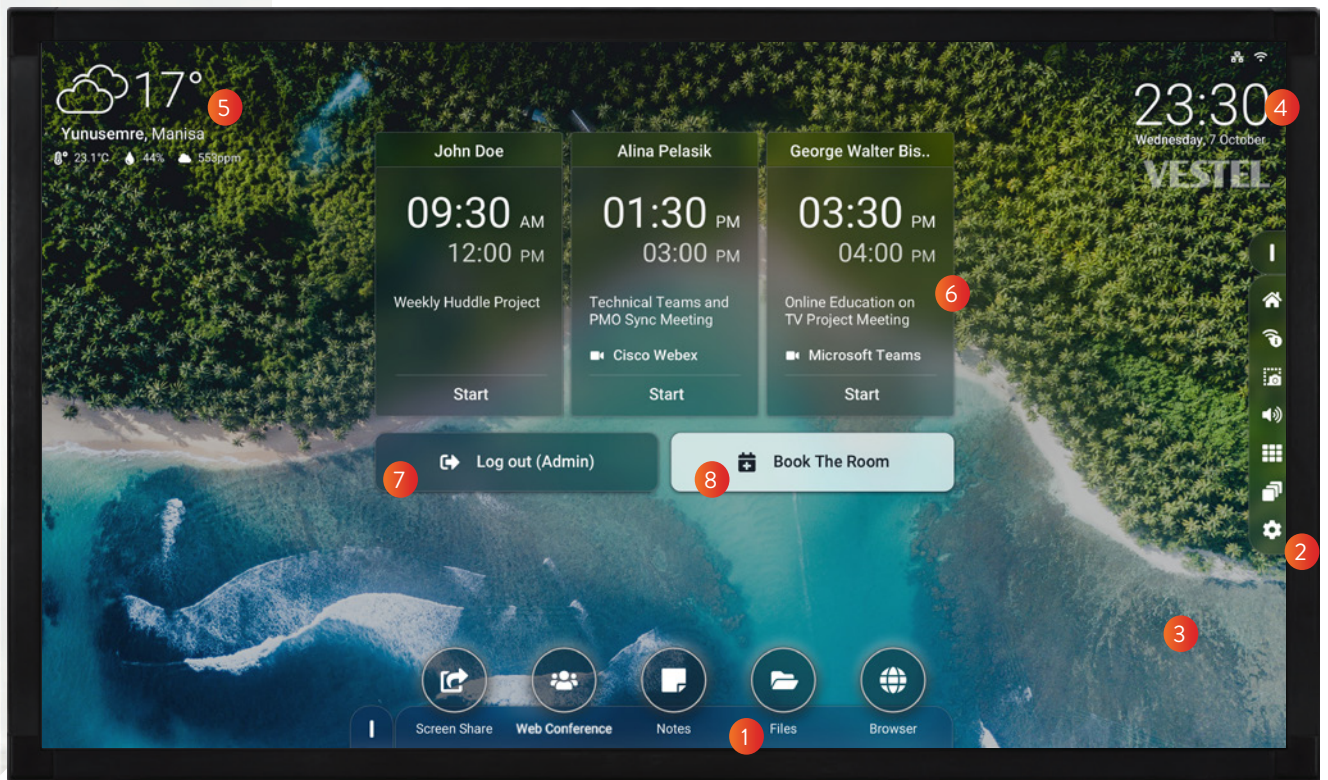

Efficient team collaboration

Maximum Productivity

More Flexible Workspace

Effective utilization of technologies

Ability to fit from smallest meeting spaces to large conference halls.

Simplified User Experience

Vestel VHuddle Solution comes with the 'VHuddle Pro' launcher SW, designed to highlight the most required functions of the modern workspace

- 1 Compact App Bottom Toolbar
- 2 Navigation Bar
- 3 Customizable Background
- 4 DateTime Info
- 5 Weather-Location Info
- 6 Calendar View/Start Meeting
- 7 User Login/Logout
- 8 Room Booking

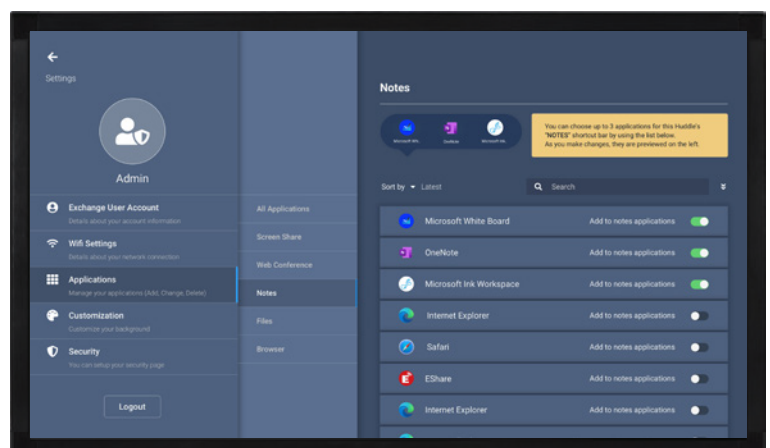

Compact App Tool Bar

Consists of selected apps for the most used meeting room applications:

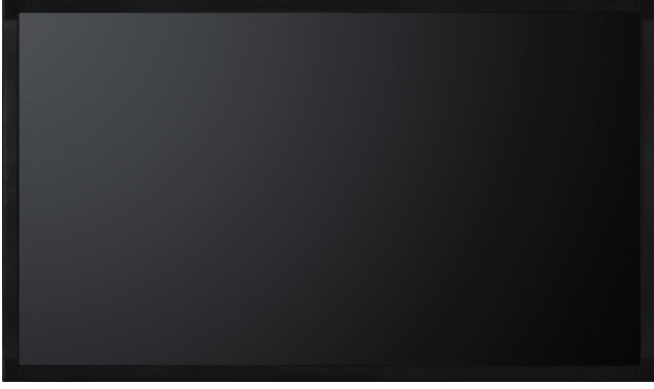

-  Ad-hoc local wireless sharing
-  Online meetings / Web conferencing
-  Note taking on digital whiteboards
-  Accessing local or cloud files
-  Browsing the Internet

Security and Maintenance

While VHuddle is designed to be used by every employee, settings can only be configured by the IT administrators to keep the display always secure and ready to be used with consistency.

Display Bundle

Display bundle is the complete package to equip your meeting room without any need of additional devices.
